Print instructions and page groupings

For best results in printing as a center-stapled booklet, print from Microsoft word with the following groupings. For example, if you print pages 20 and 21, they will print with both half-sized pages on one page. Print pages 22 and 19 (in that order) at the same time on the back of pages 20 and 21. That will give you the center page of the booklet. You can print all of them at once by cutting and pasting the list of page numbers at the bottom of this page, but that throws off the margins for some reason. This takes a little patience.
